P. O. Box 63,
SAN MARINO, CALIFORNIA

TERMS OF SALE

1. Every item is guaranteed to be as represented, and to give satisfaction, as in all past Bolender sales.
2. All bids are by mail, in fairness to all those who could not attend personally.
3. There are positively no reserves on any item by anyone, and every lot will be sold to the highest bidder, at so much for the lot. All bids will be executed below your bids where other offers permit, in good faith. Where two or more bids are exactly the same on any lot, or tied, the lot goes to the first bidder at exactly his bid.
4. No unlimited bids will be accepted. Mark your highest limit on the bid sheet (on back page of catalogue), and if you need more space for bids, use any ordinary sheet of paper. We will buy as much under your bids as other actual offers permit.
5. New bidders or customers sending bids for the first time at these sales must positively give first class references, or else send a deposit of at least 25 per cent of the total amount of bids. References acceptable would be the name of some other dealer from whom you have had coins on open account, or name of some collector known to us, or else name of your bank. To those known to me who have established credit, purchases will be sent our promptly after the sale. In appreciation of this courtesy, the purchaser will remit promptly. Postage and registration or insurance is paid by the purchaser.
6. California buyers will be charged 3 per cent state sales tax.
7. The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.
8. A list of all prices realized at this sale will be supplied for 50 cents.
9. Please send your bids now as there is little time left before the sale date.

UNITED STATES PAPER MONEY
Formerly in the celebrated collection of
KING FAROUK, of Egypt

Note. — Every piece of U.S. paper money, whether large size bills, reduced size paper money, or U.S. fractional currency notes, in this sale, is from the King Farouk collection. In the auction in Cairo in March, 1954, it was sold in such huge lots, that collectors had no chance to bid. Here is your opportunity to acquire at least a few items of this now very popular series from a famous collection. In 1953 a new and very excellent illustrated book on the paper money of the United States was published. The author was Robert Friedberg. The reference numbers refer to Mr. Friedberg's book, and valuations are given as a guide to bidding, although higher or lower prices may prevail, but all lots are to be sold without any limit, as in all past Bolender sales. Each note is in a heavy clear acetate holder.

RARE SWEDISH PLATE MONEY OF FREDERICK I.

(Property of Mr. George Kardell, these pieces were recently purchased from a museum in Sweden)

391. **1736 Sweden 4-Daler Copper Plate Money.** Large heavy piece $9\frac{1}{2}$ inches square, with counterstamps in each angle FRS (for Frederick King of Sweden) and date; also counterstamp in center with value and arms, crossed arrows. Weight $6\frac{1}{2}$ pounds. Fine and rare, original. Worth \$100. (Note. — The war between Sweden and Denmark resulted in a treaty in 1613 that called for Sweden to pay to Denmark for war damages one million rix dollars specie in six years. As a guarantee of this pledge, Denmark took over the fortresses of Alvsborg & Gottenborg and several other towns. Taxes of 250,000 rix dollars were also imposed. At that time one rixdollar bought 4 bushels of rye or over 60 pounds of butter. Thus, Sweden's gold and silver were exported for these war debts, and soon they were short of silver for coinage. Then Sweden did a wise thing, by prohibiting any export of copper whatever. The result in a few years was a great rise in world copper prices, which led to the coinage of the large copper plate money. The first Plate Money made were the huge 10-Daler pieces in 1644, of which only three specimens are in existence today.)
392. **1721 Sweden 2-Daler Copper Plate Money of Frederick I.** Type as last. Size $7\frac{1}{4} \times 6\frac{1}{2}$ inches square, weight $3\frac{1}{4}$ pounds. Fine and rare, old original. \$60. (Note. — Copies of these pieces made within the last 50 years in Sweden are in existence, and collectors are cautioned to purchase from reliable dealers, who know the difference.)

DOLLAR SIZE SILVER COINS OF CHINA

396. Note. — All of the following Chinese coins have been carefully examined, expertized, and attributed by Mr. E. Kann, the foremost authority on Chinese coins in America. Mr. Kann is the author of several books on the Chinese coinage, and spent 40 years of his life in the Orient. His latest book

is the **Illustrated Catalog of Chinese Coins** recently published last year. A large thick book, octavo, with over 500 pages, Mr. Kann, after many years of painstaking studies and research has now come forth with this clear guide and reliable text book. With original Chinese characters translated into English. Valuations are also given in this modern authority on the subject. The 224 pages of plates illustrate perhaps several thousand coins! Note. — I am in the market to buy Morgan dollars of all dates and mints, as well as all other types of dollars from 1794 to 1935, including pattern coins too. With late date half-dollars, and other U.S. coins, even nickels too, now at high or prohibitive prices in uncirculated condition, many collectors are switching to this series, the Morgan dollars. I still think these are the best buy in the market today, with reserve stocks much lower than collectors realize, according to information at hand. New collectors are starting with these too, for they cost no more than collecting uncirculated one-cent pieces, and you have a larger and certainly more beautiful coin, and better for shows and displays. Also, in case of panic, the face value of your collection is 100 times as much, an item that would be helpful should days of darkness come. At the last two sales, more bids were received on the series of Morgan dollars, then on any other series in the sale. Coin market trends do change, and I have seen many such changes in my time.

 897. **1868 half-dime struck in nickel on a thick planchet, from regular dies.** Plain edge. Similar to AW-673 but thick planchet (believed to be an error in the book Adams-Woodin. These come struck on both thick & thin planchets, but in the book AW-673 & 674 are alike). Proof. A very rare and choice coin for your half-dime collection, that you can well

- be proud of. Not over 30 or 35 minted. From King Farouk coll'n. \$35.
898. **1872 half-dime struck in aluminum on a thick planchet, from regular dies.** Reeded edge. Another very rare trial piece for the dies. AW-1271. Only 4 or 5 were minted. Just as rare as the famous 1913 Liberty head nickels, and to me, far more interesting. Brill. proof, high wire edge. From King Farouk coll'n. Try to find another one. None have been sold for 25 years, except this one to King Farouk. Worth \$50 or more.
899. **1873 half-dime struck in copper on a thick planchet, from regular dies.** Reeded edge. AW-1350. Just as rare as the preceeding, only 4 or 5 minted, and no record of any listed in many years except this one to King Farouk. Brill. proof, high wire edge. \$50.

At \$5000 not all of us can own a 1913 Liberty head nickel, but this coin just as rare may be purchased for only one per-cent of that, if you are lucky. Our estimate is \$50.

902. **1866 struck in copper from regular dies.** Trial piece, AW-572. Ex. rare, not over 15 minted. Gem color proof, magnificent, with high wire edge. A great prize in your collection of nickels, experimental piece of the first year, of regular adopted type. \$40.
903. **1867 pattern for "V" nickel.** Head of Liberty to left, Indian head-dress with 4 feathers, 4 stars, design by Longacre. On ribbon "**Union and Liberty.**" Legend and date. Reverse: large "V" on shield, motto above. AW-630. **Aluminum** proof. Rare. Not more than 50 struck. \$25.
904. 1867 regular nickel without rays. Ex. fine. \$3.50.
905. 1868 very fine, sharp. \$3.
906. 1868 **broken dies.** Very fine. \$3.50.
907. **1868 Pattern 5c Nickel.** Head of Liberty to left, similar in design of regular 3-cents nickel coins, but larger, and with a star (in relief) on forehead. Reverse: large V in wreath, motto IN GOD WE TRUST on ribbon above. Not in Adams-Woodin book, similar to AW-75 but LIBERTY in relief instead of incuse. Nickel proof. Formerly in the great Woodin coll'n., then to King Farouk, now to you. \$30.
908. **1868 Pattern for 5c Nickel struck in copper.** Obverse type similar to that used for 3c nickel, but smaller. Does not have star on forehead as above coin does. About rarity 12. \$35.

UNITED STATES TWO-CENT PIECES

955. **1836 U.S. Pattern Two-Cents.** Spread eagle on cloud; around UNITED STATES OF AMERICA 1836. Reverse, TWO CENTS within large wreath. Size of small cent. Similar to AW-58 in copper with plain edge, but struck on **thin planchet**. Brill. proof. From King Farouk collection at \$190. It is excessively rare, but I do not expect it to bring more than half of that figure. The first 2-cent piece coined at the mint, and an interesting experimental piece of the same year and by same engraver as the 1836 Gobrecht dollar; also the first gold dollars (1836) were struck, considered, and rejected, as were these 2c pieces, and thus not coined for circulation.
 956. **1863 Pattern Two-Cents.** Obverse shield similar to regular type adopted in 1864, but with GOD OUR TRUST as the motto. Reverse also similar to regular type, but CENTS much curved, and no ribbon bow. AW-414. About 40 to 50 coined. Beautiful proof. \$40.

KING FAROUK COLLECTION OF "BULLET MONEY" OF SIAM

The unit of the silver coinage of Siam is the tical, for which the Siamese term is the bat. The early coinage of Siam was in spherical form, commonly known as "Bullet Money." Generally these were coined in silver in 8 different sizes from 4 ticals to 1/32 tical, these all based on weight. The 1 tical weighs close to half an ounce, or 237 grains troy. The "Bullet Money" coins were in use from the 13th century down to 1861, when the first ordinary round coins were made for Siam, in the Birmingham mint in England. The "Bullet Money" pieces are very odd, curious, and

interesting coins, and always attract a lot of attention in displays and shows. Those coined in the metal antimony are all early coinage, and very rare. This remarkable collection from the King Farouk treasures, contains many rarities. Nearly all were purchased from London dealers, some at very high prices. Every collector should own at least one specimen from this famous collection.

1156. **SIAM.** (1250-1419) **Sukotai Dynasty.** Very early 2 ticals **struck in antimony.** With 4 different crude counterstamps. Unusually fine for this early piece, and very rare. From King Farouk collection, as are all these curious Siamese "Bullet money" coins in this list. \$25.
1157. **Ayudhyan Dynasty** (1350-1767). Early type heavy 6 ticals or 6 bats "Bullet Money" **struck in antimony.** Weighs 3 oz. Several crude counterstamps. About 1500 A.D. Only fair condition but very rare. Cost \$40.
1158. (Circa 1500 A.D.) **Early type heavy 3 ticals** or 3 bats coined in **antimony** metal. Shell and 4 other countermarks. Fine & very rare. Cost \$75. Regardless of costs, these will all go to the highest bidders. A fine chance to get some big rarities.
1159. (About 1700 A.D.) Silver 2 ticals bullet money coin. Scarce type with cuts. 3 counterstamps, bunch of lotus, garuka birds, wheel. Fine. \$7.50.

U.S. PATTERN COINS & TRIAL PIECES (Formerly the property of King Farouk of Egypt)

NOTE. — If you are an earnest collector of American coins, you should get more acquainted with the pattern coins, for they are closely connected with the regular issues collected, and many of them are more beautiful than the adopted designs. Also, the pattern coins are still reasonably priced, considering their rarity, and there is genuine collector's pride in owning at least a few coins, that other collectors do not have. With patterns this is easily possible, and I can tell you that it will enhance your collection to add some pattern coins. Not all of us may collect nearly a complete collection of them as King Farouk did, but most of us can get a few, even if you are a specialist, and collect only small cents, in which case, add a few pattern cents for thrilling interest. You may buy most of these at good discounts below the prices which King Farouk paid for them.

During my early years of collecting and dealing in coins 40 or 45 years ago few American collections were of much importance unless they contained an assortment of pattern coins. Then for 25 years, the pattern series was neglected. During the past 10 years pattern coins have picked up until today they have become very popular, judging from recent sale results. I expect to see interest in this series pick up a great deal more within the next few years, after two new books on the subject are published. These books are now being prepared by two of the foremost collectors in the field, and I anticipate great interest in this important part of our America coinage. The best book at present available is the book by Edgar H. Adams and William H. Woodin published by the American Numismatic Society in 1913, and of which there is also a reprint. There the types are illustrated, and the varieties described. The AW-numbers refer to this book. Illustrations and brief descriptions of most types

may also be found in Raymond's standard catalogue 1949 edition. All of the coins following came from the Palace Collections of King Farouk of Egypt.

1460. **(1850) U.S. Pattern "Ring Cent"**. Perforated variety. Ring around circular hole in center, as made at the mint. The idea of this plan was to save metal, and still keep the coin a convenient size for handling. Obverse: CENT ONE TENTH SILVER. Reverse: UNITED STATES OF AMERICA and wreath around the perforated center. Composition metal. AW-124. Not over 50 minted, and seldom met with today. Unc. From King Farouk coll'n. Cost \$30.
1461. **1850 Pattern "Ring Cent"**. Unperforated variety. The circle or ring is there, but no hole made. USA ONE TENTH SILVER. Reverse: value & date. Unc. Not in Adams-Woodin book. Similar to AW-113, but struck in copper-nickel. Fred Olsen coll'n. lot 487 at \$52.50. It was there described as "probably unique."
1462. **(1850) Pattern Cent**. Obverse blank. Rev. ONE CENT in wreath. Similar to AW-140 but **struck in silver**, and unknown to Adams & Woodin. Ex. rare. From King Farouk coll'n. as are all the pattern coins here listed. \$40.
1463. **1863 Pattern 3 Cents in Copper**. Similar type to the large cent, except very small date. Reverse has smaller wreath than a large cent, the value 3 CENTS within the wreath. Thick planchet as large cent. AW-395. Copper proof. From King Farouk coll'n. at \$37.50.
1464. **1867 Pattern 5 Cents Nickel**. Obverse style of 3c nickel but larger. Reverse: 5 CENTS in wreath, motto in small letters above. AW-626. Brill. proof. V. rare, not over 15 minted. From King Farouk coll'n. \$30.
1465. **1868 Pattern for 5c nickel coin struck in copper!** Obverse similar to 3c nickel but larger. Reverse V in large wreath of oak & laurel, star above. Unknown to Adams & Woodin. See their book obverse of 680 combined with reverse 618. Red proof. Ex. rare. Farouk coll'n. \$35.
1466. **1868 Pattern 5 Cents**. Obverse style of 3c nickel, but larger, and also minted on an extra large planchet with plain wide 2 mm. borders. Diam. of coin 24 mm. Reverse: 5 CENTS in wreath, motto in very small letters above, word CENTS curved. AW-685. Struck in copper. Brill. red proof. King Farouk coll'n. Not over 15 coined. \$35.
1467. **1871 Pattern Half-Dime**. Indian Princess seated, stars & date. Magnificent design by Longacre. Reverse regular type. AW-1189. Aluminum proof. Ex. rare, not over 7 or 8 minted. From Palace Coll'n. of King Farouk. \$27.50.
1468. **1872 Half-Dime Trial Piece, struck in copper!** Regular type. Ex. rare, rarity 13 which means not over 4 or 5 struck. It is just as rare as the 1802 half-dime which is worth over \$500. Just try to find another. Unc. red. \$30.

1469. **1869 Pattern 25 Cents silver.** Experimental piece, designed by William Barber, the weight was reduced from the regular 96 grains to 77 grains, to prevent hoarding or importation by other countries for the silver content. Thus, the value of the coin should depend on the authority of issue, rather than on the bullion value, a practice much used in the world today. Head of Liberty in cap r., two stars, legend around, motto on scroll below. Reverse: 25 CENTS in wreath; around STANDARD SILVER 1869. Plain edge. AW-753. Silver proof. Farouk coll'n. Not over 25 minted. \$25.
1470. Same as preceding, but **struck in copper with reeded edge!** AW-756. Red proof. \$25. From Farouk coll'n.
1471. **1869 Pattern 25 Cents.** Experimental piece, in same class as above two lots. However, here Wm. Barber the engraver presents Liberty head without cap, but with a sharp pointed plain diadem. Otherwise as last two, but **struck in aluminum.** Reeded edge. AW-770. Proof. From King Farouk coll'n'. \$25.
1472. **1870 Pattern 25 Cents.** Experimental piece of 77 grains reduced from 96 grains of regular coinage. Same type as preceding coin, but diff. date, and struck in silver. AW-952 milled edge. Nicely toned proof. V. rare, not over 25 minted. A beautiful and interesting coin to add to your collection of quarters, for added interest and knowledge. From King Farouk coll'n. \$25.
1473. **1870 Pattern 25 cents.** In same class as preceding. Obverse like lot 1469 above. Reverse: 25 CENTS 1870 in wreath, STANDARD above. Reeded edge. **Struck in copper!** AW-960. Rare. Not over 25 struck. King Farouk coll'n. \$25.
1474. **1870 Pattern 25 Cents.** Experimental piece in same class as 1469 above, but one star on Liberty's forehead. Reverse same as lot 1473. Reeded edge. AW-964. Silver proof. Not more than 25 minted. King Farouk coll'n. \$25.
1475. **1870 Pattern 25 Cents.** Same as preceding, but **struck in aluminum!** AW-968. Brill. proof. Just as rare as last, about 15 to 25 coined. \$25.
1476. **1872 Trial Piece 25 Cents.** Regular type, **struck in copper!** Red proof. AW-1266. Only 4 or 5 minted. Extremely rare. Cost King Farouk \$61 a cheap price. None reported for sale in many years, except this one sold to King Farouk.
1477. **1873 quarter, without arrows, struck in aluminum.** Regular type. AW-1347. Brilliant proof. Trial piece of great rarity, not more than 4 or 5 struck. Cost King Farouk \$95. Where can you find another? This piece in your collection of quarters will distinguish it from all others.
1478. **1859 Pattern Half-dollar.** Great rarity with two obverses, that by Paquet (Liberty seated to left) and by Longacre (head of Liberty with oak leaves in hair r.) AW-290 silver

- proof. Only 4 or 5 coined. A great prize for any collection. Cost King Farouk \$80.
1479. (1859) Pattern Half-dollar. **Trial piece of reverse die.** Spread eagle, holding in beak a ribbon inscribed E PLURIBUS UNUM. Around, UNITED STATES OF AMERICA HALF DOLLAR. The other side is blank, except that the same reverse design is partly struck on it (high portions only show), causing a great rarity, possibly **unique!** AW-304A. Reeded edge. Red proof. Cost King Farouk \$100.
1480. **1870 Pattern Half-dollar.** Experimental issue, designed by William Barber, the weight reduced from the regular 192 grains to 154 grains, to prevent hoarding and importation by other countries for silver content. Thus, the value of the coin should depend on the authority of issue, rather than on the bullion value, a practice much used in the world today. Obverse: Liberty head with one star on forehead, motto on ribbon below; legend. Reverse: 50 CENTS in wreath, STANDARD SILVER above, 1870 below. AW-905. Plain edge. Aluminum proof. V. rare. Not over 15 minted. From King Farouk coll'n. as are all these patterns. \$35.
1481. Same as preceding but variety with reeded edge. About 20 coined. From King Farouk coll'n. Aluminum proof. \$30.
1482. Same as preceding two, but Liberty without star on forehead. Plain sharp pointed diadem. **Struck in silver with plain edge.** AW-907. Brill. proof. King Farouk coll'n. \$35. Only 14 or 15 struck.
1483. Same as last but **struck in copper!** AW-909. Red proof. Just as rare as last one. Will add interest and charm to any half-dollar collection. \$35. King Farouk coll'n.
1484. Same as preceding two, but **struck in aluminum!** AW-911. Brill. proof. Only 4 or 5 minted, hence ex. rare. From Farouk coll'n. \$30.
1485. **1870 Pattern Half-dollar.** Experimental piece, on same ideas as lot 1480 above. but with **Liberty head wearing cap, and two stars** on forehead. Ribbon over hair curls has **LIBERTY incuse.** Reverse: 50 CENTS 1870 in wreath, STANDARD above. AW-915. Silver proof, plain edge. Very rare, not more than 15 minted. A splendid coin for your half-dollar collection to show another type that may have been used for regular coinage. From King Farouk coll'n. at \$34.
1486. **1870 Pattern Half-dollar.** **Rarity unknown to Adams & Woodin,** and not listed in their book. Obverse same as last, but with letters of word **LIBERTY in relief,** or "raised letters", and with the engraver's initial "B" for William Barber seen between folds of ribbon directly above the letter L in **LIBERTY.** Reverse: 50 CENTS in wreath, STANDARD SILVER above, date below. Similar to AW-

913 but struck in copper. Reeded edge. Unknown to Adams & Woodin in this metal, probably rarity 14, which indicates only 2 or 3 minted. Proof. Cost King Farouk \$80. Certainly should be worth \$50. Anyone may be proud to display a United States coin of such rarity, and the time is not distant when collectors will appreciate more the pattern series.

- 1487. **1870 Pattern Half-dollar.** Liberty head with one star on forehead. Like lot 1480 above but **struck in silver with reeded edge**, and a different reverse, both value and date being in wreath, STANDARD above. Brill. proof. AW-922. V. rare. Not over 25 coined. Formerly in the great Woodin coll'n., thence to King Farouk. \$30.
- 1488. Same as preceding, but **struck in copper with plain edge**. Red proof. AW-923. Ex. rare, not more than 15 coined, and none offered for over 20 years, except this one sold to King Farouk. \$35.
- 1489. Same as preceding, but **struck in aluminum with reeded edge**. AW-826. Brill. proof. Rare. \$30. From Farouk coll'n.
- 1490. **1871 Pattern Half-dollar.** Indian Princess seated to left by globe, holding pole with Liberty cap. Stars around, and date below. A beautiful design by Longacre. Reverse the regular type. **Silver proof**. AW-1130. Only 7 said to have been struck, and this is the only one listed in many years, sold to King Farouk at \$87.50.
- 1491. 1871 Pattern Half-Dollar. **Indian Princess** design by Longacre, same as preceding, but **without stars**, and **struck in copper**. AW-1137. Red proof. Not over 7 or 8 minted. Only one offered in last 20 years, this one sold to King Farouk. \$40.
- 1492. **1871 Pattern Half-dollar.** Obverse **Indian Princess** design, same as preceding. Reverse 50 CENTS in wreath, STANDARD above. AW-1140. Copper proof. Rarity 12 (only 7 or 8 coined). From King Farouk coll'n. \$35.
- 1493. **1877 Pattern Half Dollar.** The real "Morgan half-dollar." Liberty head in type of the Morgan dollar head. **Small stars** above & below. E PLURIBUS UNUM in large letters at sides. Reverse: **same type as the Morgan silver dollar**, of 1878-1904. AW-1513. Copper proof. Extremely rare, not more than 8 pieces minted. From King Farouk coll'n. \$75.
- 1494. **1877 Pattern Half Dollar.** "Small head" Morgan half-dollar. Head same as last but smaller, enclosed by beaded circle, around which is motto above, 13 stars at sides, date below. Reverse: large eagle with wings upraised perched upon tablet inscribed with motto "In God We Trust". Outside a circle of beads UNITED STATES OF AMERICA HALF DOLLAR. AW-1524. Silver proof. Ex. rare, only 7 believed to have been coined. Cost King Farouk \$85, and worth it. Highly desirable and popular type.

1495. **1879 Pattern Half Dollar.** Obverse the "Morgan dollar type", same design as on silver dollars of the regular coinage, but smaller. Reverse: large eagle with motto "In God We Trust" in semi-circle around lower portion. Around near outer edge in **small letters** UNITED STATES OF AMERICA HALF DOLLAR. AW-1616. Silver, brilliant proof. Ex. rare, and in great demand. Not over 10 or 12 minted. From King Farouk coll'n. \$100.
1496. **1879 Pattern Half Dollar.** "The Morgan Head" as above, with slight difference, the 13 stars are placed above and below head, and motto at sides. Reverse same as preceding coin. AW-1619. Copper proof. Only 10 or 12 minted. From the Woodin collection, later in the King Farouk coll'n. \$40.
1497. **1862 Pattern for Gold Eagle of \$10.00.** Similar to regular type, but with motto GOD OUR TRUST on scroll above eagle. AW-355. Bronze uncirculated. Rare. \$25.
1498. 1862 as last, but variety with motto GOD OUR TRUST in field above eagle (no scroll). AW-356. Bronze uncirculated. Rare. \$25.
1499. **1863 dollar struck in copper.** Trial piece of regular dies for the silver dollar of the year. Red proof. AW-370. Pattern book states not more than 15 coined, but there were probably less as none noticed for sale for many years except this one from my last sale, the King Farouk piece. Cost \$88. A wonderful addition to your collection of silver dollars, and something that few other collectors could show.
1500. **1870 Pattern Silver Dollar. The real "Barber Dollar".** Liberty seated to left, by pole with Liberty cap, holding hand on shield with ribbon inscribed LIBERTY. 13 stars & date. Reverse the regular adopted type of the year. AW-871. Silver proof. Ex. rare. Not over 4 or 5 minted. From King Farouk coll'n. \$100.
1501. **1870 "Barber Dollar" struck in copper.** Same dies as preceding coin. AW-876. Red proof. A beautiful design, and ex. rare, not over 15 pieces struck. \$65.
1502. **1876 Pattern for Silver Dollar, struck in copper.** Head of Liberty to left, border of pearls on sharply pointed diadem. Motto "In God We Trust" in small letters above, 13 small stars at sides, date below. The year of our Centennial of Independence. Reverse: ONE DOLLAR in wreath, UNITED STATES OF AMERICA above; E PLURIBUS UNUM below. Red proof, **with plain edge.** Unknown to Adams & Woodin. Similar to AW-1493, but that one has the edge reeded. Of excessive rarity, and a real prize in any collection. From the Palace collection of King Farouk of Egypt, and cost the king \$200, which I consider a very reasonable price.
